

Governance FORUM

Programme 2025 | Promoting Good Governance in the Public Interest

The Governance Forum at the Institute of Public Administration is a unique forum, established in 2007 to support good governance in public bodies and public benefit entities. Since that time, the Forum has grown considerably in its programme of events and supports to its members, which comprise a large number of government departments, state bodies, local authorities, higher education institutions and non-profit organisations.

The centrepiece of the Forum is an 18-event programme over the course of the year, which includes a series of online webinars on topics of current importance along with in-person networking and training events. Our events bring together board and committee chairs and members, senior executives, department officials and governance personnel, affording unique opportunities to learn from experts and network with peers on governance matters. Members also have access to the IPA Governance Team for ongoing advice and guidance and to the Forum website, which is a repository for reference material and event content. The Forum also has its own podcast series, *In the Chair*.

The benefits of Governance Forum Membership are:
